KeyM macros are the perfect tool for your keyboard. They are like the "Remote Desktop" for your keyboard. Using KeyM macros, you can go to any website with a few clicks of your keyboard. All you need is a browser and a laptop. KeyM has a basic mode, a full mode, and a full server mode. Basic Mode: Easy access to only the most used websites and services Full Mode: Easier access to even the most used websites and services. Full Server Mode: Allows the user to choose which websites to be redirected to. KeyM Basic Mode: Click this box to activate the basic mode of KeyM KeyM Full Mode: Click this box to activate the full mode of KeyM KeyM Full Server Mode: Click this box to activate the full server mode of KeyM How it Works: Just open your web browser, click a link, and then press the keyboard shortcut keys to open the website in your new browser window. If you want to exit the

---

website that you are currently on, just click the ESC key. If you want to open a specific website, just select the website and press a specific keyboard shortcut key.

**Special Key M Features:** There are some special features you will notice when you use KeyM. The new browser has been designed to work with OSX, and it has some unique features.

**WebMapping: KeyM** automatically maps websites to other websites. This feature maps to Windows and OSX.

**KeyM Server Mode:** This mode allows you to completely define your own redirects. You have access to all websites with any permission.

**Special User Features:** There are 2 features of this program that will really set it apart from other applications.

**KeyM User Mode:** This mode allows the user to have a specific website open in their default browser.

**KeyM All User Mode:** This mode allows the user to choose which websites to be open in their default browser.

**KeyM User Mode (Configuring)** There are 6 different user

---

modes for the user to choose from. This is what you need to select. Select the "KeyM user mode" Select the "Avant" browser The user can choose their own settings. The default is "Avant". Select the "KeyM all user mode" Select the "Avant" browser The user can choose their own settings. The default is "Avant". Any of the 3 modes will work as the

#### What's New In TidyDesk?

Customize the appearance and functionality of your desktop by creating easy-to-use launchers. Create folder lists for daily tasks, start programs and update the desktop in different ways by using hotkeys. Save and reuse your configurations to easily launch the same settings at any time. The desktop is easy to use. Just click once to hide or show the desktop and select the launcher type, and click again to activate your configuration. 'Works like a charm' Additional features Once

---

you start the program, you get a warning message about non-unique icons, and you have to remove the duplicate shortcuts before launching the main window. :: LOADING :: :: ERROR :: :: APPLY :: :: LEAVING :: TidyDesk 0.5.1762 - Clean your Desktop! Windows Application Publisher's Description: This is a small, yet powerful application for improving the desktop layout. Its simple & user-friendly interface allows even beginners to customize the appearance and behavior of the desktop by creating easy-to-use launchers. "Works like a charm!" - Quoted from the reviews. TidyDesk Features: \* Create custom folders and shortcuts for daily tasks \* Start programs and update the desktop in different ways by using hotkeys \* Save and reuse your configurations to easily launch the same settings at any time \* Easy navigation through groups and use the browse dialog to select targets \* Customize the appearance and behavior of your desktop by creating easy-to-use launchers \* Drag

---

& drop targets directly onto the main window to add applications or documents to groups \* Add icons to predefined groups to make them more distinctive \* Supports Windows XP and above

Limitations: \* Can only be used on the desktop. The application is portable, but the system registry is not affected. \* Requires at least 1 GB of available space. \* There are some Windows features that can't be used on a non-NT-based system. TidyDesk requires that the computer be running Windows XP or later, and the target computer must be connected to the internet. Please make sure that you are running Windows XP or later. TidyDesk is a clean and light weight desktop application which is useful to clean up your desktop by providing you with a clean launcher. A clean desktop is a good desktop. So, if you have an issue with your desktop and want to solve it in one click, this is an app that can do the job. To use this program, you can easily drag-and-drop shortcuts and groups to the main

---

window. You can create custom icons for your groups by simply dragging the file or folder to the main window. You can also copy items from the Desktop, Start Menu, or My Computer to

---
